<input type="checkbox"/> SWLP ADMIN	SWLP	
<input type="checkbox"/> SWLP MONITORING	SWLP	
<input type="checkbox"/> SWLP OFFICE	SWLP	
<input type="checkbox"/> SWLP ONSITE HQ	SWLP	
<input type="checkbox"/> SWLP WAREHOUSE	SWLP	
<input type="checkbox"/> TECH LP6	LP6	✗
<input type="checkbox"/> TEST	LP5	✗
<input type="checkbox"/> WAREHOUSE MAIN	LP4	✗

Online and offline logoints selectable (toggle)

If a logpoint is in multiple selections running at the same time it only uses the earliest one

Select Logpoints By Location:

Location	Action
Onsite HQ	select / deselect
Admin	select / deselect
Factory	select / deselect
HQ Office	select / deselect
LP6	select / deselect
Monitoring	select / deselect
Warehouse	select / deselect

From the **Safety Menu > Selections > Add**

You can select or deselect all the logpoints in any of your site locations. Just click the links in the Location tree displayed to the right of the logpoints list.

Keep in mind that if you're restricting logpoint selection to only those that are Online, the 'select' link will only choose the online units in that location.
