

# User Guide

## Selections | Selection Types

### STEP ONE | Adding Selection Types

Safety Selection types help separate the types of test a site might do.

In the Site Level, under the Safety Tab, click selection types

Click Add

### Safety Selection Types

Search:    Include Inactive

Name your selection type

Add a description. This description will be displayed on the logpoint when someone is selected. Enter the description you wish to inform the selected cardholder about.

### Add Selection Type

Name:

Description:

Active:

Click SAVE when done to save this as a type that can be selected when creating Safety Selections.
