

Pegasus Gateway

User Guide

Pegasus Gateway Overview

OVERVIEW

Pegasus now manages over 250 client sites. We realise connectivity needs to be easier when you are working across multiple clients, so we created Pegasus Gateway to make things easier!

It's a new dashboard that allows you to link all the Portals you access in one handy location. Linking your logins allows you the power to move between Portals with ease.

- Pegasus Gateway is your **key to connect** your business and workforce to our industries and networks. It will allow you to manage all your Pegasus compliance requirements with **one username and password**.
- Once you register for a Pegasus Account, you can link client Portal Tiles to your Pegasus Gateway Dashboard.
- Finding the right place to stay compliant and keep working for a client is as simple as clicking a Portal Tile from your Dashboard.
- This tool is focused on our Contracting Companies (ConcoWeb users)

LINKING PORTAL TILES

Linking Portal Tiles

ADDING TILES OVERVIEW

The Pegasus Dashboard is your home. Click the “Add” button to link the Portals you visit on a regular basis.

It will prompt you to enter in your user credentials for the Portal.

Once entered, your user account credentials are recognised for any additional portal you need to link in the future.

Add other Portals if required.

- Pegasus Dashboard requires a valid Onsite Track Easy Account.
- Upon adding a portal, it will request your Onsite Track Easy Login, It will automatically validate and if entered correctly, let you know it was invalid.
- This one login is used for all Portals. This is standard for most Contractor Companies. (Concoweb Users)
- Link your required Portal Tiles one by one. Only add the Portals you require, currently they can not be removed after being added.
- Currently limited to our upgraded portal sites. More to come.

The image displays three overlapping screenshots of the Pegasus Dashboard interface. The top-left screenshot shows the main dashboard with a navigation bar containing 'Return To Dashboard' and a main area with 'Dashboard', 'Portals', and 'Notifications' sections. A green 'Add' button is located next to the 'Portals' section. An orange arrow points from this 'Add' button to the middle screenshot. The middle screenshot is a 'Link Application' form with the Pegasus logo and a 'Return To Dashboard' link. It contains a 'Username' field with the value '918261' and a 'Password' field with masked characters. A green 'Link' button is at the bottom right. An orange arrow points from the 'Link' button to the bottom-right screenshot. The bottom-right screenshot shows the dashboard after a successful action, with a green notification bar at the top stating 'BHP portal added successfully'. Below the notification, three portal tiles are displayed: 'onsite track easy', 'RAIL INDUSTRY WORKER', and 'BHP'. An orange arrow points from the 'BHP' tile back to the 'Add' button in the top-left screenshot, completing the cycle.

WORKING WITH THE DASHBOARD

Pegasus Gateway Dashboard

DASHBOARD

The Pegasus Gateway Dashboard button will allow you to exit a Portal and return to the Dashboard, at any time.

Quickly move from Portal to Portal without having to re-enter your user credentials.

Use the button in top left hand on the Portal header, to return to the Dashboard.

- The dashboard displays all your Portal Tiles in one location
- Manages your Account Settings
- Is accessible on all screens (except Onsite Track Easy currently)
- Press the “Pegasus Gateway” Icon to return to the Dashboard. Its located next to your username on top of the screen.
- Jump into a different Portal or Onsite Track Easy straight away if required.
- If you need to return to the Dashboard from Onsite Track Easy, you will need to return to the login page of the Pegasus Gateway <https://login.poweredbyonsite.com/> Other Portals are not impacted with this currently.

PEGASUS GATEWAY SETTINGS

Pegasus Gateway Settings

SETTINGS BUTTON

The Pegasus Gateway Settings Button will allow you to manage this account.

Currently this allows you to:

- Show your current registered email address
- Change your password
- Logout of Pegasus Gateway (This is useful if you have other people use a shared computer)

- There is the option at the homepage of the Pegasus Gateway to be able to reset your password from there if you have forgotten it, or you are not currently signed in.
- The Pegasus Gateway Account is independent of the Onsite Track Easy system, and it's a purely optional tool to use.
- Your Onsite Track Easy Access in all portals will work as normal if you opt out.

Pegasus Gateway Notes

THINGS OF NOTE

The Pegasus Gateway is a new tool, still under development here at Pegasus.

Limitations on managing different login credentials, for the Portals, are present.

Once you have added Portals, no further action is required as they are permanently linked to your Pegasus Gateway account

- The Dashboard tile is available on all updated Pegasus Portals. Our older version portals will not have the Pegasus Gateway icon enabled.
- Limited to the one login per portal. Clients with other level logins can still launch the portal, but will need to log out, and then use their other credentials in that portal if required.
