

The Client Mobile App provides instant, live access to all compliance information, from contracting companies to each individual worker and asset.

Your team has the data they need at their fingertips to log workers in and out, check competence, complete toolbox, fatigue, and evacuation checks, and to make informed decisions about the workforce on site.

Client App [iOS Download](#)

Client App [Android Download](#)

Invitation to access the Mobile App starts with an email requesting you to activate your Avetta Account (previously called Pegasus Gateway Account)

Create your personal password for that registered email address

Access will be granted to other Avetta tools such as Client Portal and Onsite Track Easy, but for now, this account we use for the Client Mobile App

Please Activate Your Avetta Account

Hello PegasusMobile AppUser,

An Avetta account has been created for you, using this email address. An Avetta account enables you to manage your worker compliance, complete training, and access the Sites of your clients who use the Avetta Site access solution.

Your account can also be used to download the [Workforce Mobile App](#) to view your profile.

Please click the button below to complete your account registration.
