- Support button
- Adjustable Stand

Device Features Underneath

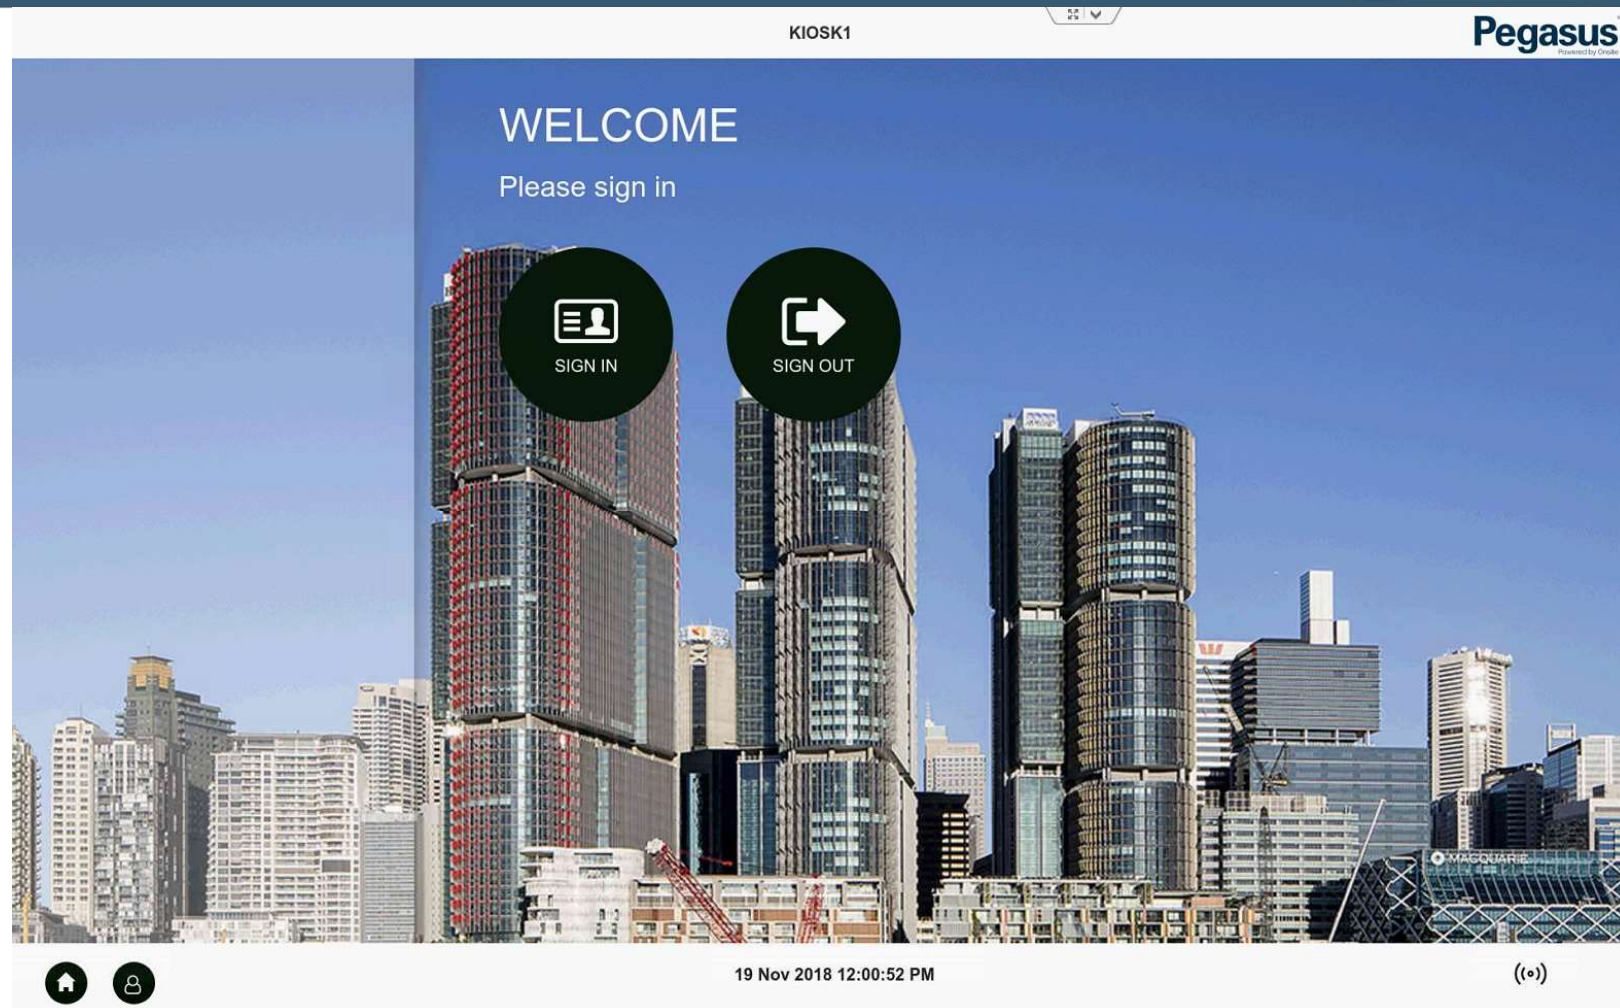

- Power Cable
- Power Button with LED Light
- Phone Ports (not used)
- USB Ports
- Network Port
- COM Port (for BAC Device)

Sign In / Out Process

- Tap Proximity reader when on the Welcome screen if you have your card. This will start the Sign in/out process depending on your status at site.
- Press SIGN IN or SIGN OUT when you don't have your card.
- Press SIGN IN if you are starting work at site. If you are a visitor a sticker will be printed.
- Press SIGN OUT to complete your logout process with site and be recorded as leaving.

Sign In / Visitor Screen

- Cardholders: If you have a card you can tap on here as well. If you don't have your card, enter in your number manually.
- If you are a visitor, use the bottom three fields to enter in your details.
- Ensure that Full Company name, First Name and Last Name and 10 Digit Phone Number are all entered.
- Visitors, when signing out, use the ID number on top of sticker. Or use same details you used to login, to log out here. The system will match you.

The screenshot shows a kiosk interface for signing in. At the top, it says 'KIOSK1' and 'Pegasus Powered by Oracle'. The main heading is 'Let's get you signed in!' followed by the instruction 'Please swipe your card.' Below this is a dark grey form with four input fields: 'Person ID:', 'Your Company:', 'Full Name:', and 'Phone Number:'. The 'Person ID' field is currently empty, while the others contain placeholder text. Below the form is a virtual keyboard with a numeric keypad, a row of symbols including '#', '\$', '%', '&', '/', '-', '_', '(', ')', and 'tab', a row with 'caps', '@', '"', '=', ':', ';', '!', '?', and ',', and a bottom row with 'ABC' on both sides. At the bottom of the screen are three buttons: a home icon, a 'Cancel' button, and a 'Continue' button. The background of the screen shows a city skyline with a prominent red and white skyscraper.
