SUITABILITY ASSESSMENT (Applicant's Supervisor to complete)

The role of 'Receiving' an Access Authority is a safety critical leadership role with multiple high level responsibilities that must be performed by the Applicant.

By endorsing the suitability, the Supervisor is indicating the Applicant has the experience and ability to carry out all the responsibilities involved with the selected authorisation.

PART A – Suitability Assessment - supporting evidence

Access Authority – Substations (5.2)

Select one ONLY

The Applicant has a Distribution or Electrical Trade/Licence (REQUIRED)

Yes

No

(if No the application will be rejected)

Field Access Authority – Lines (6.3)

Select one ONLY

The Applicant has a certificate in ESI Transmission Lines (REQUIRED)

Yes

No

(if No the application will be rejected)

This question is mandatory

1. Describe why the applicant is suitable for the role of receiving an Access Authority? Has the Applicant performed similar roles in the past?

Please include detail of their suitability to:

- Ensure the safety of themselves and others
- Provide warnings and demonstrations to others
- Supervise others in a work party
- Clearly communicate with others
- Clearly communicate and convey information to a 'Controller' regarding actions performed on a work site
- Previous similar roles

Response:

Thomas has been working in the HV industry for 7 years and understands the risks associated with High voltage. He has completed his high voltage switching ticket through a registered training organisation which covers the fundamentals of holding and issuing permits and supervise work groups. He has also has worked for on the Ausgrid and Endeavours Energy networks and has good communication skills.
